Any Other Business

Joan Wright informed the members the group membership had been renewed for the National Association Patients Participation (N.A.P.P.)

Results of GP Patients Survey taken by the Patient and Public Involvement Forum for Doncaster East conducted during May 2005 were discussed.
Overall a high level of satisfaction was revealed at the practice and this is a credit to all concerned. Very Good Results.

A practice survey was currently being conducted, this is the same type of survey that was undertaken September/October 2004. The results of this survey would be compared to the previous year to determine if the services had improved or not. The results would be brought to the patient group meeting for discussion.
